

I don't want any changes to Indiana's telephone privacy law--before I had my name put on it,I would receive from six to ten calls every day from salesmen-sometimes I would answer and no one would be there,also.I am handicapped and can't pick-up the phone easily,so I would let my answering machine pick it up all the time.The calls started soon after eight A.M.and continued till close to nine P.M.When I added my name to the list,the calls stopped---such a relief!!!! And now I can answer myself,since I'm sure I want to talk to the caller.Please don't make any changes.My 91 year old mother's name is on the list also,and it has made her day better,too.
